what i need to improve on

- watch vod and see what i could have done better ☹️
- aim past the enemy if they are moving so that they walk into the crosshair ☹️
- hold angles in a way that i can fall back to cover and it's unlikely that they go past my crosshair ☹️
- hold tightly if you have angle advantage and you're going slow ☑️
- don't unswing if they don't peek at you
- improve my movement : jiggle peek ☹️ | wide peek ☑️ | shoulder peek ☑️ | deadzoning ☹️ | burst strafing ☑️
- spray at low ☑️ | mid range and burst at long range ☹️ (and tap at very long range ☑️) make some movement between bursts
- when i have the angle advantage shift walk and hold tightly ☑️
- peek by pre aiming the corner cleaning block by block ☑️
